

A Message from Chip Berthelot regarding Hurricane Harvey

September 12, 2017

Dear Friends, Neighbors, Business Colleagues, Customers, Suppliers, Financial Partners and others the Azure team and business touches:

Hurricane Harvey dealt a major wallop to our neighbors in Houston and the Gulf Coast. The storm's impact and the rebuilding effort will likely last for years.

I am very pleased to report to you that both the Azure Assets and work team came through this event without any major negative impacts:

- Our physical assets and plants are "running at peak performance" thanks to our operating team in Eastern Texas and Northern Louisiana.
- Our management and back office activities are also operating normally thanks to our teams in both Dallas and Houston.

While we are saddened that so many of our fellow Houstonians--and those up and down the gulf coast--have suffered from hurricane Harvey, we are working and trying to help both through volunteer efforts and financial contributions. We are also humbled and so very thankful for the efforts of so many first responders....and volunteers....what a great country we are all so blessed to be a part of!

And we are obviously praying for those impacted and currently being threatened by hurricane Irma!

As Houston works to recover from this event, we will be engaged and focused on helping the people impacted to recover.

If there is anything that either my team or myself can help with in your particular situation, please reach out so we can lend a helping hand!

With our thoughts and prayers.

Chip
